

# Safety On Scene

Presented by:  
**Charlotte Regional Medical Center**  
**Charlotte County Fire / EMS**  
**Englewood Area Fire Control District**

## What is Safety On Scene?

Imagine traveling in your vehicle and being involved in a vehicle collision. You're upset, confused, injured and possibly unconscious. Emergency crews arrive on scene and need information about your medical history, medications, and allergies. What is your hospital of choice? Who is your doctor? Who is your emergency contact? What happens if you are unconscious and unable to answer? So many questions, how do you let emergency workers know the answers? The **Safety On Scene Program** is there for you to help when emergency workers need this information in a flash!

## Here's How It Works!

A small sticker is placed on the back of your rearview mirror. This sticker alerts emergency workers that a small informational packet is in your glove box. Inside the S.O.S. Packet emergency workers will find:

- **A photo I.D.** that lists **your name**, **address**, and **phone number**
- Information on your **medical history**, **medications** and **allergies**
- **Emergency contact** information
- **Doctor's name** and **phone number**
- A portable **Do Not Resuscitate Order** (optional)
- A portable **Living Will** (optional)
- A **Med Key Card** (optional)

The information is all there for not only emergency workers but hospital personnel too!  
(Consider having an extra S.O.S. Packet to carry in your wallet or purse!)

## Where can you get the **S.O.S. Packet**?

For more information on how to receive your **FREE** packet simply call:

**Charlotte Regional Medical Center at 637-2451,**

**Charlotte County Fire / EMS at 743-1367**

**Englewood Area Fire Control District at 697-6644 or 474-3311**

**American Red Cross – 629-4345**

**Hours: Monday – Friday, 9:00 a.m. – 4:00 p.m.**

**Large groups are welcome to schedule lectures in order to have a representative visit to your location with packets for your entire group.**
